Net is needed to activate this software. Regards, Abdul Sabir If this post can be helpful for someone else, please use the share buttons below. Thank you. If you want to remove 2 in 1 software from your computer: 1. Click on "start" button and go to Control panel 2. Go to the third down folder and press "uninstall or change" 3. Go to "remove a program" and select 2 in 1 software 4. Click on ok then follow the instructions to uninstall the program Re: Unable to uninstall 2 in 1 office 2013 after uninstalling 1 in 1 tool. Hi, Your office is still activated under your license. If you didn't activate it, the product will be uninstalled in the next 30 days. You can activate it after 30 days. Then activate it again from your license. This will set your license to be able to use 2 in 1 version for your office. If you want to remove 2 in 1 software from your computer: 1. Click on "start" button and go 82157476af
